Professional Summary

Computer Science graduate (University of Pisa) now pursuing an MSc in Artificial Intelligence, with hands-on experience in full-stack development (Java, Spring Boot, Angular, React). Proven leadership in a Junior Enterprise and a track record of delivering freelance web solutions. Fluent in English, with international experience. Passionate about **blockchain and cryptocurrencies**, and about the intersection of **AI and Bionic Engineering**, with a focus on **advanced prosthetics** and human-machine interfaces. Looking for a competitive, agile environment where I can bring motivation and technical expertise.
